A simply stunning 7 bedroom late Victorian detached family home set in gardens and grounds extending to approximately 6 acres, enjoying a large frontage to the River Stour.

Included within the grounds of the property is a dilapidated cottage with planning permission to demolish and replace with a new dwelling, and a significant garage block with potential for redevelopment, subject to the necessary planning consents.

Part of the Scheduled Monument of Dudsbury Camp, an iron age fort, the property is legally protected because of its historical importance. It was traditionally constructed in 1893, and substantially extended and modernised in 2018, and now extends to over 4,700ft² of accommodation arranged over 3 floors, with facing red brick elevations under a natural Welsh slate roof.

The house is situated at the head of a long, private driveway, in the centre of lawned and wooded grounds which includes the aforementioned derelict 2-storey detached cottage which has full planning permission for replacement.

Set just off Christchurch Road, this fine home enjoys easy road access to the market town of Wimborne Minster and the coastal towns of Poole and Bournemouth, both of which have mainline rail links to London Waterloo, and to nearby Bournemouth International Airport.
